

Indoor Accessories

Surface Hanger linear fluorescent

Application:

Style **VS** mounting hangers are used for surface mounting of linear fluorescent luminaires. Specify intermediate and end hangers as required.

Construction:

Formed aluminum hanger and cover. Specify conduit feed with 7/8" conduit entry and holes for surface mounting, or with canopy for mounting to recessed outlet box (by others). Hanger cover removes with (2) screws to access splices and mounting hardware.

Finish:

Electrostatically applied thermoset polyester powder coat, silver, semi-gloss white or black.

Ordering Information:

Order luminaire(s) separately, specify **S** mount.
