

**Wall Mount:** 1:8 Scale

**Mounting Plate**

**Installation**

**Base Mount**

**Specifications**

|  |  |   |  |
|--|--|---|--|
| <b>A</b> Extruded aluminum mounting plate  | <b>E</b> AFE finish end kit (includes aluminum end plates and knobs) | <b>H</b> Specular extruded aluminum reflector | <b>L</b> Knockout, (2) 7/8" (22mm) dia.              |
| <b>B</b> Extruded aluminum ballast housing | <b>F</b> Die cast aluminum end plate                                 | <b>J</b> Aluminum reveal plate (black)        | <b>M</b> Support structure and fasteners (by others) |
| <b>C</b> Electronic ballast                | <b>G</b> Aluminum sidearm  | <b>K</b> Mounting hole, (3) 9/32" (7mm) dia.  | <b>N</b> Conduit and connector (by others)           |

**Finish:**

*Style 105* fluted – bright clear anodized aluminum housing. Painted end plates, sidearms, visor and ballast housing in choice of silver or semi-gloss black.

*Style 106* smooth – semi-gloss white housing and end plates.

Painted surfaces – 6 stage pretreatment and electrostatically applied thermoset powder coat for stable, long lasting and corrosion resistant finish.

Reflector – extruded high purity aluminum with clear anodized specular finish. All luminaire hardware – stainless steel.

**Mounting:**

Mounting plate fastens flush to wall. Unit hinges on plate for hands-free access to wiring.

**Electrical:**

Use 90°C wire for supply connections and through wire. 7/8" (22mm) dia. knockouts at ends of mounting plate for conduit feed (by others). Accessory end feed kit provides entry for surface conduit at end of ballast housing.

Housing hinges down for access to ballast and wiring. Optional #12 AWG prewired modular through wiring with quick connectors.

Integral electronic HPF thermally protected class P ballast with end-of-life protection.

Optional electronic dimming ballast; compatible dimmer switch required (by others). Consult sales representative for compatibility and specifications.

Optional integral emergency battery operates one lamp. Separate unswitched supply is required.

**Standard:**

UL listed or CSA certified for damp locations (Style 124 painted model with lens recommended for damp locations).

**Features**

- Precise optical control of the T5 lamp projects light evenly across the ceiling – offices, conference rooms, lobbies
- Extruded visor, cast end plates join at articulated reveals
- Classic elliptical-shaped ballast housing – hinges on wall plate for easy installation; through wiring for rows
- Optional modular wiring, dimming, emergency battery

**Performance**

Two parabolic reflector sections drive light across the ceiling from one edge. An elliptical section shields the lamp from normal viewing angles and redirects its light to a parabola. Glare is minimized and asymmetry of the beam is maximized resulting in high beam efficiency and superior surface uniformity.

**To order by Row Code - T5 Lamps**

When the Style 105/106 small integral T5 fluorescent is run continuously in a **straight** row, **elliptipar** offers the option of specifying and ordering the entire row as one catalog number. Ordering by row eliminates the need to calculate length, type and quantity of reflectors and end plates.

Steps to specify Row Code:

1. Determine lamp type and select corresponding lamp code (**S**=T5, **V**=T5HO).
2. Determine maximum available length for row and round up to nearest foot. Find nominal row length in chart (col. 1).
3. Determine what lengths/wattages of lamps will be used and select the corresponding lamp combination codes (col. 2).  
**Example:** If only 3' and 4' lamps are to be used on the project, specify row codes ending with **A**, **B** and/or **D** only.
4. If for a given nominal row length a preferred lamp combination is not listed, select the next shorter row that is available in the desired lamp combination.
5. Once the nominal row length and lamp combination has been found in the chart, note the actual overall row length (last column). Also consider if the quantity and lengths of the individual luminaires suit the installation.
6. Enter the four character Row Code in place of the Lamp Code described on page C-4.1. The remainder of the catalog number is formed as shown on page C-4.1.

**3 Row Code**

**Note:** Enter row code in place of Lamp Code described on page C-4.1.

**Lamp Combination(s)\***

- A** = All nominal 3' lamps
- B** = All nominal 4' lamps
- D** = Nominal 3' and 4' lamps
- F** = Nominal 3' and 5' lamps
- G** = Nominal 4' and 5' lamps

**Nominal Row Length** in feet, between 3' and 50' \*\*

- S** = T5 fluorescent
- V** = T5 HO fluorescent

\* Not all lamp combinations are available for each nominal row length (see chart).

\*\* Nominal row lengths over 50' can be formed by combining shorter row lengths (example: a nominal 60' row can be ordered as two nominal 30' rows).

**Example**

**F106 - S36B - S - 02 - 2 - V00**

Nominal 36' long row of Style 106 small smooth T5 fluorescent using only nominal 4' (28W) lamps. Row includes four nominal 8' reflectors with two 4' lamps, one nominal 4' reflector with one 4' lamp, one **AFE** finish end kit and integral 277V electronic ballasts. Overall row length is 36' 0-3/4".

| Nominal Row Length (feet) | Lamp Combination | Nominal 3' Luminaire (1 x nominal 3' lamp) | Nominal 4' Luminaire (1 x nominal 4' lamp) | Nominal 5' Luminaire (1 x nominal 5' lamp) | Nominal 6' Luminaire (2 x nominal 3' lamps) | Nominal 8' Luminaire (2 x nominal 4' lamps) | AFE Finish End Kit | Overall Row Length |
|---------------------------|------------------|--|--|--|---|---|--------------------|--------------------|
| 03                        | A                | 1  |  |  |   |   | 1                  | 3' 0-3/4"          |
| 04                        | B                |  | 1  |  |   |   | 1                  | 4' 0-3/4"          |
| 05                        | G                |  |  | 1  |   |   | 1                  | 5' 0-3/4"          |
