ENERGY STRATEGIES IN ARCHITECTURAL LIGHTING

LED COVE

The **Lighting Quotient's** fragtir coveights provide even wash of white light in an asymmetric pattern free of scallops, striations and glare. The optical housings can be interlocked in continuous rows to aim as one, with aiming adjustable and lockable. High-efficiency drivers can be mounted remotely or inside the luminaire. Contact www.thelightingquotient.com or **Circle 201**.
